

# WOOFAA Smart Air Sterilizer

Ceiling-mounted Electrostatic Air Purifier with Smart IoT Control

## Remove Bacteria, Virus, Toilet Smells and TVOCs

Reduces risk of cross-infection | Reduces foul smells associated bad moods

## Releases Anion Clusters to Induce Pleasant Sentiments

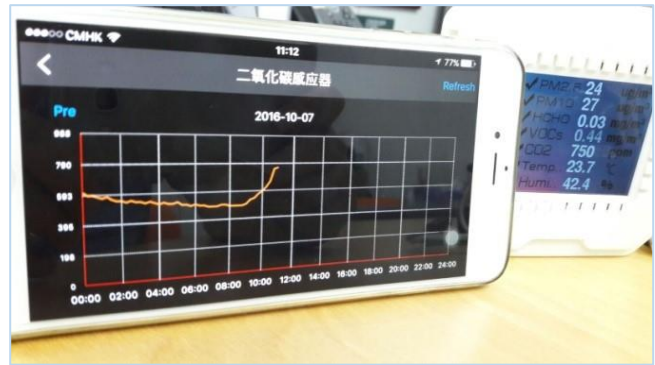

## On-demand Smart Control

- Switch-on appliance only when there is an occupancy
- Switch to full power when there is a full house of occupancy

Volume of occupancy is detected by a wireless air quality monitor, the WOOFEE Dog.

Air quality figures is accessible from both WOOFEE Dog and a mobile APP. Control logic is configured in APP.

## One IAQ Monitor to Control Two Air Appliance

WOOFEE Dog can measure up to 7 different air parameters. We use CO2 and PM2.5 (fine dust) levels to control when to switch the air sterilizer and/or any existing mechanical fan in pre-defined logics.

## WFAHCDX Technical Specifications

Model	Servable Area m <sup>2</sup>	Power W	Size mm <sup>3</sup>	Weight kg
